

Dear Red Feather Lakes Property Owners,

I would like to start out with thanking the Red Feather Lakes Firehouse Supporters, a 501c organization. Without the support of financial aid, many projects for the volunteer fire department would not be possible or delayed. Over the last year, the Supporters have purchased many items and fixed the fire station itself with funding through the 501c. Here is a list of projects and items that have been purchased in 2021:

- Repairs to our ambulance that services Red Feather Lakes and Crystal Lakes.
- Stair chair, this is used to carry patients down and upstairs safely.
- Helmets and boots for the firefighters.
- Turn out gear bags to store the firefighter's gear.
- Replaced the furnace at the fire station.
- Installed a utility sink in the bays, to wash equipment.
- Installed outside outlets on the fire station, enabling us to plug in apparatuses while stored outside
- Two leaf blowers to help keep the bays clean.
- Three shelving units for the container.

This coming year, the Supporters can help the fire department greatly by purchasing new SCBAs (self-contained breathing apparatus) and a compressor to fill the air bottles. Our surrounding departments have newer SCBAs. Our current SCBAs are 20+ years old and need to be replaced. The SCBA is a vital piece of equipment for firefighting. The cost for this project is approximately \$50,000.

Your donations to the Firehouse Supporters would be greatly appreciated so we can move forward with our SCBA updating and other projects that are ongoing.

Thank you very much,

Chief Brendon Hill RFLVFD
